

Doc Pete's Prescription

Rx

Patient Name: Tucson
Date: Summer 2001

Diagnosis:

- The population of Tucson is growing.
- Each person uses water in many ways.
- We're using groundwater faster than nature can replenish it.
- We need to be sure we have a water supply for the future.

Prescription:

1. Conserve water:
 - morning, noon, and night
2. Find other water sources besides groundwater:
 - renewable sources like Colorado River water
 - recycled wastewater or reclaimed water

Remarks:

Please join me, Doc Pete, in caring for the health of Tucson and our desert home. The fun activities in this booklet will help you find out more about our water resources.

Dr. Pete The Beak
